To whom it may concern:

I would like to recommend RTM Enterprises, Inc. and Ron Marconi for consideration for your organization's needs. He has saved the Buffalo City Mission thousands of dollars and that figure grows daily. Some of the highlights include:

- Bringing in \$12,000 or \$13,000 that we were overcharged through his bill audit.
- Current saving us around \$6-8,000 annually on supplying our electric and gas through his alternate suppliers.
- Selling us a capacitor that reduces our electrical consumption, saving \$1000's annually.

Ron has done an excellent job as our advocate to help us cut costs so we can serve the unfortunate men, women and children in our community. He is always willing to assist in any area that we have a need or point us in the direction of someone that can help.

I recommend for any endeavor he can provide to you.

Yours truly,

Sal Sorrento
