

To Whom It May Concern,

Thank you for taking a moment to consider our company.

Not only can we reduce your electrical energy usage, improve plant efficiency and make your operation "greener" but, in many cases, we can guarantee that your investment will pay for itself – often in 24 months or less!

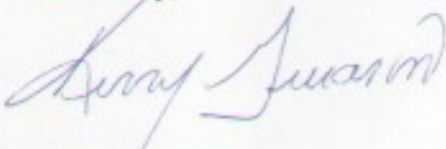

How can we do this? We are so sure of our results that many of our projects come with a guarantee of savings backed by the manufacturer. That way you can rest assured that you WILL reach your savings goal!

Imagine saving 5-10% on your electricity costs. Not only will your company be greener, but, your bottom line will be healthier with energy savings possibly worth hundreds of thousands of dollars. Let us show you how we can save you money and put your company on the cutting edge of green technology.

We are also proud to say that we are the only company of our kind endorsed by Southern California Edison. If you are a Southern California Edison customer, we'll show you how you can have an even faster return on investment!

We look forward to talking with you.

Sincerely,

Kerry Guarin

President – Clear Energy Systems Inc.
